Help build a global community committed to ending the use of warfare in this century.

OUR MISSION

To explore, model and promote the *means* for humanity to live without war.

IN PERSONAL, LOCAL, AND GLOBAL SPHERES, WE FOCUS ACTION ADVOCACY AND LEARNING ON THE TRANSFORMATION OF:

- **WORLDVIEW** – from the frame of us/them to the frame of personal and global interdependence.
 - *We celebrate personal and cultural diversity in an interdependent world.*
- **BEHAVIOR** – from polarizing, alienating and dominating, to building relationships, working together and addressing the needs of all.
 - *We understand that conflict is inevitable, but war is not.*
- **INFRASTRUCTURE** – from the systems, institutions and allocation of resources that support war, to those that support cooperation for the benefit of all life.
 - *We champion the emergence of a new paradigm of sustainability.*

OUR GUIDING PRINCIPLES

War is obsolete. Nuclear weapons have made all war obsolete.

We are one. All life on Earth is interconnected and interdependent.

Means become ends. Process determines outcome. Wars beget more wars.

OUR CORE PRACTICES

I will resolve conflict; I will not use violence.

I will maintain an attitude of good will; I will not pose an enemy.

I will work together with others to build a world beyond war.

WHAT IS AT STAKE?

- A viable planet whose life support system has not been destroyed by war.

THE REWARD?

- A beautiful and hospitable Earth home for current and future generations.

SHARE THE VISION OF A WORLD...

- Where war is unthinkable.
- Where values rooted in global interdependence are cultural norms.
- Where nonviolent conflict resolution is used to resolve personal, community and international disputes.
- Where nations and people work together to meet the needs of all.

Working together
we can build a world beyond war
